Purpose Statement

This manual was designed primarily for use by individuals with developmental disabilities and related conditions. We hope that it is also useful for consumers, service coordinators and providers who directly assist families and individuals with developmental disabilities.

The main focus of this manual is to provide easy-to-read information concerning available resources, and to provide immediate contact information for the purpose of applying for resources and/or locating additional information.

You may notice that many of the resources listed in this manual are directly linked to regional Comprehensive Care Centers. Often, (and especially with children under the age of three and adults) a local Comprehensive Care Center will be the point of entry for an individual to gain access to many programs and services. For school-aged children and adolescents, the most direct route to services is often through the local public school system.

This product is the hard-copy version of the resource manual created by the Human Development Institute. An online version of this manual with a site search engine is also available on the Internet at the following address: <http://www.ihdi.uky.edu>. This Web site is Bobby-Approved for Web accessibility (accessible to screen readers). Alternate formats of this manual are available upon request.

The list of resources provided within this manual is not meant to be exhaustive. The purpose is to focus on resources available to individuals with developmental disabilities, though other related resources have been included. If you are aware of additional resources that are available and that should be included, we invite you to contact us regarding future editions of this manual.

Kentucky finally agreed to provide extra services and settled the suit. It then created the Michelle P. Waiver.

The Michelle P. Waiver is a Medicaid program that helps people live in the community or go back to the community after living in an institution. It is for anyone with mental retardation or a developmental disability who is eligible to receive services at an ICF/MR, like Oakwood, Hazelwood, or Cedar Lake Lodge. To get the waiver, you must also have a medical card or be eligible for one.

What services are provided through the Michelle P. Waiver?

Case Management	Supported Employment *
Homemaker *	Attendant Care *
Personal Care *	Behavioral Supports *
Respite	Assessment/Reassessment
Adult Day Health *	Occupational Therapy *
Adult Day Training *	Physical Therapy *
Environmental and Minor Home Adaptations	Speech Therapy *
Community Living Supports *	

A case manager or support broker will help you decide the services you need. The services with a star are limited to 40 hours a week altogether.

There are no residential services with the Waiver. It was designed to help people who live in their own homes or a family member's home, but need help to continue living in the community.

Who provides the services?

Once you receive the Waiver, you can get services from any Supported Community Living (SCL), Home and Community Based Waiver (HCBW) or Adult Day Health Care (ADHC) provider.

Accessible Respite Care

Respite Care consists of short term and temporary care to families with members who have disabilities so that the caregivers and other family members can take a break from their daily routine of care giving. Respite care can also be offered overnight or for an extended period of time. Respite care help alleviate the stress and consistent nature of caring for relatives with disabilities. Respite care also helps assuage burnout on behalf of the caregiver and family members. Furthermore, respite care also provides a change of daily schedule for the child cared for which can help strengthen both their independence and relationships with others. Most respite care programs are managed by The Arc, The Easter Seal Society and United Cerebral Palsy in cooperation with local hotels. Depending on the organization or volunteer(s), respite caregivers either visit the homes of these families or require visiting a day care center or a respite group home. "Host families" or exchange programs consist of other families who also have a member with a disability temporarily caring for a friend or neighbor's child and vice versa.
